Department of Public Works

951 Market Street
Nekoosa, WI 54457
Phone 715.886.7889 Fax 715.886.7884

With the COVID-19 outbreak what is most important is the safety and well-being of our employees and the citizens of the City of Nekoosa. We want to ensure we are not only protecting ourselves but also doing our part to protect public health.

The City of Nekoosa Public works is committed to keeping essential services on going. At this time we will not be entering households unless required to maintain city services. The following action items will be maintained by our public works staff:

- Emphasizing to employees the importance of following the Center for Disease Control prevention strategies.
- Following all local, state, and national guidelines on non-essential travel.
- Practicing social distancing and using collaborative tools to work with one another and with Nekoosa residents.
- Monitoring the situation as it evolves and putting further actions into place should they be necessary.

Nekoosa public works is committed to provide the essential services to all city residents. Please do not hesitate to call with any concerns or questions.

Rick Schmidt - Director of Public Works
